**Avionic Instruments LLC**  
*Aerospace for Industry™*

March 10, 2014

To Whom It May Concern:

Avionic Instruments is excited to announce that we have chosen STS Component Solutions as our exclusive airline distributing partner for the below part numbers and selected platforms:

<b>Part Number</b>	<b>Description / Model Number</b>	<b>Platform</b>
1-002-0102-2090	1C1000-1C-2090	B737-777
1-002-0102-1830	2A350-1AS-1830	A320/340

While we are still available for direct support, a single distribution point provides aircraft operators with expedited processing and a streamlined communication flow to satisfy their needs. We know that you will benefit from their years of experience coupled with their excellent customer service, attentiveness, and support.

If you should have any questions, please do not hesitate to contact me.

Sincerely,

STS Component Solutions  
2910 SW 42<sup>ND</sup> Ave  
Palm City, Florida 34990

Dear Ms. Obiala:

Branet, Inc. is excited to announce that we have chosen STS Component Solutions as our airline distributing partner. This will provide your customers with a single distribution point and provides aircraft operators with expedited processing with a streamlined communication flow to satisfy their needs. We know that your customers will benefit from your years of experience coupled with your excellent customer service, attentiveness, and support; all characteristics Branet, Incorporated delivers as well.

Branet offers repair capabilities for cargo restraints (nets) designed for Boeing, McDonnell Douglas and Lockheed Aircraft. Branet also carries the PMA for cargo restraints for many Boeing aircraft, specializing in their 737 series.

This agreement will remain in effect until either party sends written confirmation requesting its dismissal. If you should have any questions, please do not hesitate to contact me.

Sincerely,

Brenda Yorks  
President

Subject: STS Component Solutions Teaming Agreement and Cobham OEM Support

Dear Mr. Covella:

We are pleased to inform you that Carleton Technologies, Inc. dba Cobham Mission Systems is a leading OEM and preferred source of life support equipment ranging from oxygen regulators, masks, valves, monitors and On Board Oxygen Generation Systems (OBOGS). Cobham is recognized for its ability to develop specialized oxygen delivery systems for high performance life support applications. These highly engineered, elegant oxygen delivery systems offer customers the highest value solution. Cobham is recognized as an industry leader in cutting edge oxygen life support systems.

Cobham is pleased to enhance our level of customer service and support by utilizing STS Component Solutions as a business partner in our aftermarket efforts. We are confident this new business partnership, based on STS Component Solutions established reputation and support network backed with our full suite of Aftermarket OEM parts and service will satisfy all our customers maintenance and sustainment requirements. As our teaming partner you are assured we will only use our OEM designed, manufactured and approved parts, OEM technical data and approved overhaul & repair services. By utilizing the combined experience, expertise and resources of STS Component Solutions and Cobham Mission Systems services, your customers will be assured of the best OEM service, minimized risk, maximum cost control and optimum support.

We are pleased and excited to work with STS Component Solutions and to have you support us. We are confident that your customers will value the level of support and commitment in providing the highest level of quality products and service.

Feel free to contact me or refer any of your customers to contact me with any questions you or they may have.

Sincerely,
