AIRCRAFT CABIN MAINTENANCE & STORAGE

Overview:

- Our company was founded in Ireland in 2015
- In 2018, we merged with **STS Aviation Group**, a global MRO provider
- Today STS Aviation Services is strategically located at Shannon Airport; an area that is fast becoming a hub for European aircraft maintenance activity
- Our team of experts specialize in aircraft cabin maintenance
- We also operate as a storage facility in service of the Aircraft Leasing, Airline, and MRO sector
- Our team has extensive experience in the field of cabin interior engineering and refurbishment, having worked with many Airlines, MRO's, OEMs and aftermarket suppliers

Approvals:

- EASA 145 C6 rating for chapter 25 approved by the Irish Aviation Authority ref: **IE 145.075**
- FAA 145 repair station **#7K7Y104D**

Capabilities:

- Passenger seat repair and overhaul
- Flight attendant and crew seat overhaul
- Storage facilities with temperature control environment specifically for storing of seats to ensure they stay in the best condition possible for all aircraft interior parts
- Interior refurbishment-galleys, lavatories, sidewalls, ceilings, bins
- **Component overhaul:** Coffee makers, ovens, water boilers, ballasts, motors and probes
- Kitting services for modification projects
