WIRE HARNESS REPAIR

WIRE HARNESS

STS Aviation Services Canada offers Airlines and MROs with superior support for all electrical harness repairs from a wide array of fuselage, engine, and landing gear harness manufacturers. Services include...

- Repairing a harness is an excellent value compared to a new product replacement
- Helps extend harness life by letting us catch the small issues before they become more expensive and costly
- Exceptional value with below industry standard TATs
- Transport Canada and EASA certified AMO
- Extensive CMM library
- OEM approved parts

Contact us to learn more about how we can assist your needs.
