Current Return-to-Lease Process

STS' Return-to-Lease Process

Airlines and MROs achieve an average of 25% cost savings through STS Component Solutions' Return-to-Lease Program.

- ▶ **Demand Identification:** Define PN scope according to criticality based on consumption data, airline logistics and policies.
- ▶ **Predictive Solutions:** Monitor, evaluate, predict and adjust stock levels at any time. Restock consumed aircraft part numbers as needed.
- ▶ **Transport & Handling:** End-to-end order and shipping management.
- ▶ **Service Management & Improvement:** Continuous improvement of services including monitoring, evaluating, and synching all involved parties.
