

# Return-to-Lease Program

STS Component Solutions offers comprehensive inventory management solutions tailored for airlines, leasing companies, and MROs during the aircraft return-to-lease process. Leveraging strong industry relationships, advanced business intelligence, data analytics, and expert repair and engineering teams, we deliver significant cost savings compared to traditional material purchasing and repair methods.

### Program Benefits

- On-site support at MRO facilities
- Component Advance Exchange Options
- Cost Effective Delivery Solutions
- DER and Engineering Services
- Inventory Planning
- Material Consignment
- Repair Management of Components
- 24/7 Customer Support
- Streamlined Logistics & Transportation

### Current Return-to-Lease Process

### STS' Return-to-Lease Process

Airlines and MROs achieve an average of 25% cost savings through STS Component Solutions' Return-to-Lease Program.

- **Demand Identification:** Define PN scope according to criticality based on consumption data, airline logistics and policies.
- **Predictive Solutions:** Monitor, evaluate, predict and adjust stock levels at any time. Restock consumed aircraft part numbers as needed.
- **Transport & Handling:** End-to-end order and shipping management.
- **Service Management & Improvement:** Continuous improvement of services including monitoring, evaluating, and synching all involved parties.
